

Asmita Gawande

7489528495 | asmitagawande28@gmail.com

SUMMARY

3rd year BTech student specializing in Artificial Intelligence with strong foundations in Python and Data Structures using C++. Actively seeking internship or entry-level opportunities to apply AI and software engineering skills in real-world projects.

TECHNICAL SKILLS

Programming Languages: Python, C++, Java, R

Databases: MySQL

Core Concepts: Data Structures and Algorithms, Object-Oriented Programming, Machine Learning Fundamentals

PROJECTS

AI-Based Student Performance Prediction

2024

Machine Learning Project

Python, MySQL

Developed a machine learning model to predict student academic performance based on academic and attendance data

Performed data preprocessing, feature engineering, and regression-based modeling

Evaluated model performance using accuracy and error metrics

Spam Email Detection System

2023

Natural Language Processing

Python

Built a text classification system to identify spam and non-spam emails

Implemented TF-IDF vectorization and supervised learning algorithms

Improved classification accuracy through feature optimization

Library Management System

2023

Database Application

Java, MySQL

Designed a database-driven system to manage books, users, and issue records

Implemented SQL queries for efficient data handling

Ensured data consistency and basic access control

EDUCATION

Medi-Caps University

Indore, India

BTech in Computer Science and Engineering (AI Specialization)

2022 – Present

CGPA: 8.5 / 10

TRAINING & WORKSHOPS

Completed professional training program by ISC2 covering fundamentals of cybersecurity, security principles, and risk management

ACHIEVEMENTS & CERTIFICATIONS

Participant, Smart India Hackathon (SIH) – collaborated in a team-based national-level hackathon to develop a problem-solving solution

EXPERIENCE

Fresher actively seeking internship or entry-level opportunities in Software Engineering and Artificial Intelligence
